Principal's Message

Dear Jaguar Families,

We are excited to share that a partial solar eclipse will be visible in St. Louis, Missouri, on Monday April 8. During this celestial event, the moon will partially cover the sun, creating a spectacular astronomical display. We will be having a Blackout to celebrate the occasion. We are encouraging everyone to wear all black on Monday, as well as to bring a towel or small blanket for the occasion.

Here are some important points to keep in mind:

Safety First: It's crucial to observe the eclipse safely to protect our eyes during this event. We will be providing our students and staff with proper solar viewing glasses.

Timing: We will be viewing the partial solar eclipse as a school community together outside from 1:45-2:15 pm. We will have indoor recess from 12:45 - the end of recess to ensure the safety of our students.

Educational Opportunity: Teachers will incorporate this event into our curriculum, providing students with valuable lessons about astronomy, the solar system, and eclipses.

We look forward to making this partial solar eclipse a memorable and educational experience for all of our Jaguars!

Beasley Partial Solar Eclipse Information

Summer School Information

Registration is open for **Mehlville School District's Summer Session** for grades K-8. Registration will open for high school students on March 25. Summer Session will be held at the following buildings in June:

- Bierbaum Elementary School (Principal Jeffrey Winter)
- Blades Elementary School (Principal Tina Clark)
- Rogers Elementary School (Principal Stephanie Werner)
- Buerkle Middle School (Principal Jefferson Stephens)
- Mehlville High School (Principal Preston Steinhoff)
